MOBILE APPLICATION

Application:

The screenshot displays a mobile application interface with a green status bar at the top showing the time 11:41, a location pin icon, and connectivity icons (Wi-Fi, LTE, cellular signal) along with a battery level of 86%. Below the status bar is a grey header. The main content area is white and contains three rows of data, each with a label and a corresponding input field:

Temperature	84.02
Humidity	76
Air quality	4095

The bottom of the screen shows a black navigation bar with three white icons.

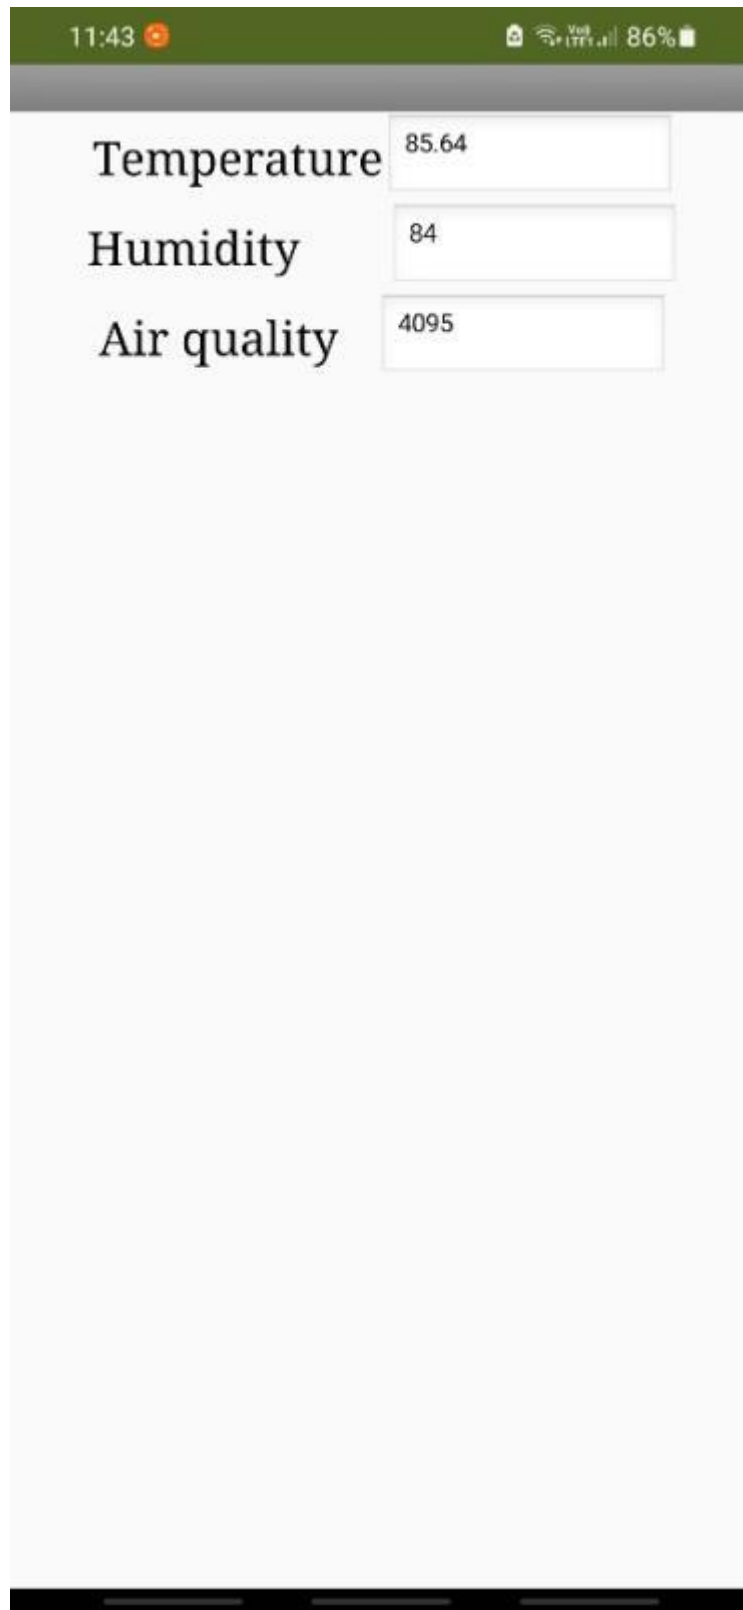

MOBILE APPLICATION

The image shows a screenshot of a mobile application interface. At the top, there is a green status bar with the time 11:43, a small orange icon, and network/battery indicators including 'VoLTE', '4G LTE', and '86%'. Below the status bar is a grey header bar. The main content area is white and displays three rows of data: 'Temperature' with a value of 84.2, 'Humidity' with a value of 84, and 'Air quality' with a value of 4095. Each label is in a large, black, serif font, and each value is in a smaller, black, sans-serif font inside a white rectangular input field. At the bottom of the screen, there is a black bar with three white horizontal lines, representing the home indicator on an iPhone.

Temperature	84.2
Humidity	84
Air quality	4095

MOBILE APPLICATION

The image shows a mobile application interface with a green status bar at the top. The status bar displays the time 11:43, a small orange icon, and various system icons including a lock, Wi-Fi, VoLTE, cellular signal, and a battery level of 86%. Below the status bar is a grey header bar. The main content area is white and contains three rows of data, each with a label and a value in a white box with a grey border:

Temperature	85.64
Humidity	84
Air quality	4095

At the bottom of the screen, there is a black bar with three white horizontal lines, representing the Android navigation bar.
